**Superior Metals & Alloys, Inc.** is expert in bringing the highest quality stainless steel wire to manufacturers. We have established partnerships with fully vetted and time tested factories throughout the world including mills in the USA, China, India, Taiwan, Thailand, Vietnam and the EU.

We pride ourselves on maintaining a regimen of providing samples and conducting trials so that when it comes time for production our customers can feel confident that the material will work the first time and every time. Members of our staff have literally decades managing stainless steel wire factories.

Our service levels give customers the ability to import materials and have their orders delivered to their door on time, eliminating the need to navigate the complicated world of international trade and logistics.

*Call or email us today and let us show you The Superior Way!*
